

Letter Postcard Writing Campaign
Ideas for Palliative Care Postcards

1. As a Canadian and a CWL member, I encourage the government to re-evaluate the amendments to Bill C-7.
2. Please review the changes to Bill C-7 as I feel that as a Canadian citizen, it will betray the trust between the patient and the health care providers.
3. As a Canadian woman, I strongly disagree with the proposed amendments that are being considered to Bill C-7. Please reconsider these changes
4. I want to express my strong concern and opposition to Bill C-7. It perplexes me that we as a society will now treat our fellow man with such disregard.
5. This is a defining moment for Canada. Let us take a moment and consider the amendments with careful and complete deliberation so that we can be a society of care, compassion and inclusion for all.
